Aegis + Rejuvenator: A Solution for Every Opening

Aegis Bored Lock for Classrooms

Designed to fit into any standard cylindrical lock prep, making it a versatile and convenient choice for school security upgrades.

Can be used for both new and retrofit projects, offering mortise lock chassis options compatible with Marks®, Dorma®, Corbin Russwin®, Best®, Sargent®, Schlage®, and TownSteel's own locks.

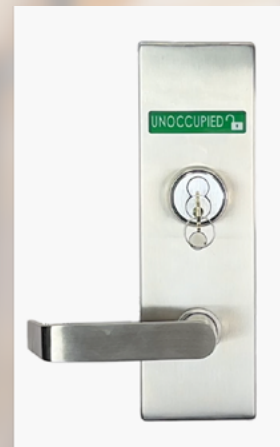

Aegis Locks for Private Spaces

Lock student and staff bathrooms with the standard Privacy function and TownSteel's innovative Faculty Privacy function. Faculty Privacy allows staff to lock the bathroom door from the inside, changing the status indicator and making the outside key inoperable.

Aegis Mortise Lock for Classrooms Rejuvenator Series for Schools

Achieve visual uniformity across mortise and bored platforms with the Aegis products as part of TownSteel's Rejuvenator product line.
