Secure your School

with Security Solutions from TownSteel

On April 23, 1635, the first public school in what became the United States was formed in Boston, Massachusetts. Since this time, educational facilities have had the noble mission of training students for their chosen professions.

School is a place where most people spend a significant amount of their lives. Gaining knowledge, developing friendships, and preparing for the future are some of the important activities that happen in schools. The environment needs to nurture this growth and provide a safe haven for students and staff. This is precisely where school security comes into play.

The world we live in is evolving and it's vital that schools prioritize student's and staff's protection. Classroom openings and their respective hardware can offer a great deal of security when called upon. TownSteel would like to introduce you to some of the products we have that help to protect students and staff.

Aegis LIC-SLM Bored Lock with Indicator

TownSteel's newest patent pending security solution product is our Aegis Bored Lock. With growing concern for safety in schools, TownSteel is proud to introduce you to this product.

Ease of Use, Built to Last

The Aegis Bored Lock is well suited for either new construction or retrofit projects, but it really shines in a retrofit application. It has been designed to perfectly fit into existing cylindrical lock preps making this security upgrade fast and easy. Any minor modifications can easily be done in the field without voiding warranty or fire-label.

The Aegis Bored Lock features a heavy-duty stainless-steel escutcheon with a large message indicator on both sides of the lock. This important feature is critically important when safety is compromised. Occupants inside the room or personnel in the hallway can identify the lock's status in an instant!

This product is ANSI/BHMA A156.2 Grade 1 certified, UL 10(C) 3-hour rated, and meets the requirements of the Americans with Disabilities Act. For your convenience, it is available with either a cylinder on the outside with a thumb turn on the inside or in a double cylinder configuration. Other features multiple functions, and many popular cylinders are available to meet your building's standard keyway.

Aegis MSE-LM Mortise Lock with Indicator

TownSteel offers the option of a Large Message Indicator in a mortise lock format. TownSteel has engineered this product to fit into most competing brands mortise door preps! The Aegis Mortise Lock simplifies the upgrade process for you, saving time and money.

Depending upon the function of the lock you need, minor modifications may be required, but your warranty and ratings will not be impacted.

TownSteel manufactures this product with heavy-duty stainless steel and it is ANSI/BHMA A156.13 Grade 1 certified, UL 10(C) 3-hour fire rated, and meets the requirements of the American with Disabilities Act.

About Our Partners

TownSteel is proudly partnered with multiple organizations who all share the same goal — making schools safer for our children and communities.

Our school safety team works closely with these organizations to better understand the problems schools face today, and to give schools the solutions they need when they need it.

The mission of PASS is to provide school administrators, school boards and public safety and security professionals with information, tools and insight needed to implement a tiered approach to securing and enhancing the safety of school environments based on their individual needs, nationwide best practices, and making the most effective use of resources available.

The "I Love U Guys" Foundation serves the lives of students, administrators, public safety experts, families, and first responders through the development and training of school and community safety and family reunification programs.

Our mission is to support school crisis prevention, response, and recovery, and to protect every school and every student, every day.

We have always — and only — focused on school safety. We are firm in our mission and firm in our resolve, and we will continue to advocate for and provide research-based education, tools, and resources to ensure the safest possible learning environment for the youth of our nation.

Aegis ESG Exit Device Trim with Indicators

The Aegis ESG is a versatile and durable exit device trim with indicators on both sides of the trim as illustrated below. It is designed to pair with many existing exit devices, offering a cost-effective solution for retrofitting and upgrading security without replacing entire exit device systems.

Featuring multiple functions for many different applications, it enhances security by restricting access to authorized personnel. The ESG delivers both convenience and reliable protection to high traffic areas.

The Aegis ESG Trim is ANSI/BHMA A156.3 Grade 1 certified, UL 10(C) 3-hour fire rated, and it also meets the requirements of the Americans with Disabilities Act.

TDC 40 Heavy Duty Door Closer

Doors are only secure when the lock is locked and the door is closed.

TownSteel's TDC 40 series door closers are designed for high traffic openings within any educational setting.

Features packed into this closer include a heavy-duty cast iron body, precision rack and pinion construction, adjustable spring power, and separate, adjustable latch, sweep, and backcheck valves. Multiple arm types and mounting options are available.

The TDC 40 series door closers are ANSI/BHMA A156.4 Grade 1 certified, UL 10(C) 3-hour fire rated, and meets the requirements of the Americans with Disabilities Act.
